

St. Michael's Executive Committee has recently discussed protocols for indoor worship and group activities and recommends following the recent CDC and state government guidelines regarding mask wearing.

• Per CDC guidance and the easing of restrictions for indoor gatherings by the Governor's office, and along with vaccination progress, the wearing of masks at indoor services and other group activities will be optional.

• To safeguard your health and the health of our worship leaders and to ensure the cleanest air possible, Guardian Angel air purifiers with HEPA filters and UV lighting will continue to be utilized.

• Hand sanitizing stations will continue to be on-site.

Offerings are to be brought forward as people come forward for holy Communion.

• Bulletins will still be sent electronically for viewing on phones, and paper copies will be available on a table in the narthex.

• Our building will be thoroughly cleaned on Monday afternoons.

• Persons shall not attend if you are feeling unwell, have tested positive for COVID-19 within the last 14 days, have recently been in contact with someone with symptoms or have tested positive, or have recently returned from travel to a high-risk state.
